## PROFESSIONAL PROFILE

Frontend Developer specialized in React and TypeScript. Experienced in building responsive and optimized web applications. Passionate about UI/UX, clean code, and continuous learning.

## PROJECTS

### 1-GraphicHabits: JavaScript, LocalStorage.

A habit-building app that measures your progress with charts and saves your progress helped me improve my use of LocalStorage.

### 2-MusicAppReact: React, TypeScript.

An application that uses the Deezer API to play Spotify-like music. It strengthened my learning process with React and API management.

### 3-Gifts App: Angular, Tailwind, API.

Search-based application that lets users find GIFs by topic using external APIs.

## EDUCATION

**University** — Systems Engineering

Univer (9th semester, in progress).

**Online courses** in Angular, TypeScript, and frontend development (Udemy).

**Mentorship with a Senior Developer.**

improving code quality, best practices, and professional standards.

## EXPERIENCE

I collaborated on a desktop application for gyms, helping to design the interface and functionalities that allow for managing users and payments, using JavaScript, HTML, CSS, Node.js, and Electron.
